## PREFACE

The following tabular report is based on a survey of 500 registered voters in Massachusetts. Telephone interviewing was conducted from June 26<sup>th</sup> through 29<sup>th</sup>, using RDD and cell phone numbers.

All polls are subject to errors caused by interviewing a sample of persons, rather than the entire population. In 95 cases out of 100, the responses to this survey should be within plus or minus 4.4 percentage points of those that would have been obtained from interviewing the entire population of registered voters. The sampling error for subgroups of the survey will be greater.

As with any survey, the release of selected figures from this report without the analysis that explains their meaning could be damaging to Hickman Analytics. Therefore, we reserve the right to correct any erroneous or misleading release of this data in any medium through the release of correct data or analysis.

## HOW TO READ THE TABULAR REPORT

Always read down; the percentages in all the tables relate to the subgroups under which they appear. For example, on Page 1, Table 1, under the heading DMA BOSTON the figure 402 indicates the number of respondents who live in the Boston designated media market and the percentages below indicate the opinions of that subgroup for that particular question. The TOTAL column listed at the far left reflects the opinions of all survey respondents answering that particular question. In addition, the following points may need further clarification.

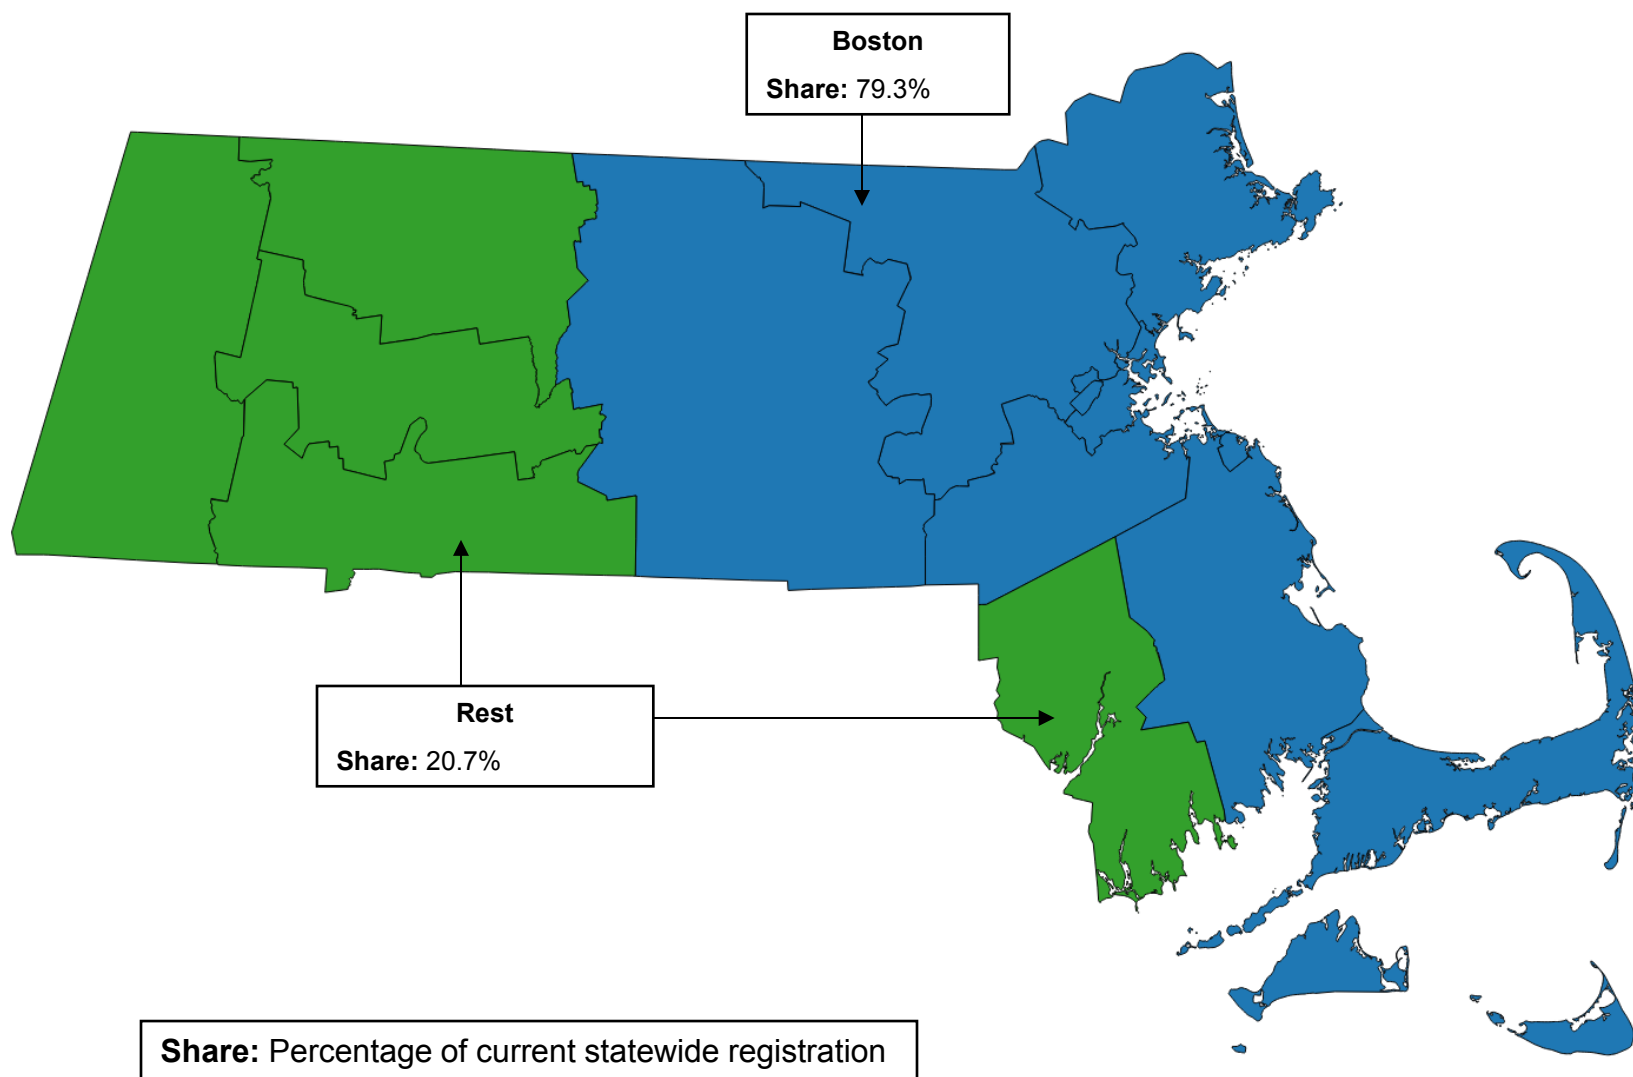

### Banner 1

- **DMA** – Subdivides respondents by whether they are in the Boston media market or not. See map for details.
- **PARTY ID**
- **RACE**
- **SEX**
- **AGE**
- **SEX & AGE**
- **SEX & PARTY ID**
- **IDEOLOGY** – LIB: liberal, CON: conservative, OTH: moderate or something else.
- **PRES VOTE** – HRC indicates respondents who would vote for Hillary Clinton for President. TRUMP indicates respondents who would vote for Donald Trump. OTH/DK indicates undecided voters and those who would support another candidate.

## Banner 2

- **POSITION ON ENERGY ISSUES** – Indicates whether respondents support (SUP) or oppose (OPP) the proposals to expand energy production. OFFSHORE refers to expanding offshore oil and natural gas drilling in U.S. waters. COAL refers to coal-fired power plants. NAT. GAS refers to natural gas power plants. RENEW. SUP refers to respondents who support more renewable sources such as solar and wind, and NOT refers to respondents who either oppose or don't know about more renewables. FRACKING refers to using hydraulic fracturing for oil and natural gas extraction.
- **ACCESS NORTHEAST** – Indicates whether respondents have heard or not heard about the prospective Access Northeast project, as well as whether they support or oppose it. BAKER indicates whether respondents would be more likely to support the project if Baker supported it (MORE), or if they would not be more likely (OTH).
- **SUPPORT NATURAL GAS** – NO RENEW subdivides respondents based on whether they would be more likely or not more likely to support natural gas projects if renewables were not available. LOW PRICES subdivides respondents based on whether they would be more likely or not more likely to support natural gas projects if it would lead to lower prices.
- **ENERGY ISSUES** – IMPORTANT VERY and IMPORTANT SOME indicate those who say energy issues are very and somewhat important to how they will vote in 2016, respectively. NOT indicates those who say energy issues are not important to their vote or say that it depends or they don't know.

# Media Market summary

Hello, my name is \_\_\_\_\_ from HAI, a national research firm.

[IF LANDLINE] We're conducting a survey in Massachusetts to get people's opinions on important issues. This number was selected at random and according to the research procedure, I would like to speak to the [ALTERNATE: YOUNGEST/OLDEST] [ALTERNATE: MAN/WOMAN] at this address who is registered to vote.

[IF CELL PHONE] We're conducting a survey of cell phone users in Massachusetts to get people's opinions on important issues. Since you are on a cell phone, I can call you back if you are driving or doing anything else that requires your full attention. Can you talk safely and privately now? [IF YES, CONTINUE. IF NO, SCHEDULE CALLBACK]
